OBJECTIVE

Computer Science student at San Francisco State University with hands-on experience in mobile app development and UI/UX design. Passionate about building intuitive, user-focused software using modern front-end technologies.

EDUCATION

San Francisco State University, San Francisco, CA

Expected Fall 2026

Bachelor of Science, Computer Science

Relevant Coursework: Full-Stack Software Web Development, Data Structures, Programming with Data Algorithms, Object-Oriented Programming, Programming Methodology, Discrete Structures, MIPS Assembly

PROFESSIONAL EXPERIENCE

Assistant Manager

January 2024 - Present

T-Mobile

- Surpassed monthly sales quotas by 20–30%, consistently ranking among the top performers in the district.
- Recognized as Top RSR for Q2 2024 out of 200 representatives, reflecting excellence in sales and customer service.
- Increased premium wireless plan adoption by 15% quarter-over-quarter through tailored customer solutions.
- Trained and mentored 5+ team members, improving individual sales performance by an average of 10% within 2 months.
- Delivered exceptional customer satisfaction, achieving a 95%+ positive feedback rating on post-service surveys.

Software Engineering Intern

June 2023 - August 2023

Frugal Innovation Hub @ Santa Clara University

- Strengthened programming expertise by learning and applying the Dart language to build responsive mobile features.
- Gained hands-on experience with the Flutter framework, developing cross-platform UI components that enhanced app performance.
- Designed collaborative wireframes and user flows in Figma, working closely with teammates to translate ideas into functional designs.
- Contributed to a small, diverse team by practicing agile development methods, fostering open communication and problem-solving.

PROJECTS

Order Simulator

June 2023 - August 2023

Santa Clara University

- Designed and developed a cross-platform mobile application in Flutter to support ESL learners with food-ordering confidence.
- Created user-centered flows and mockups in Figma, translating feedback into intuitive interface designs.
- Integrated Firebase services for secure authentication, database management, and real-time app functionality.
- Prioritized accessibility and real-world usability, ensuring the product addressed diverse user needs in practical scenarios.

SKILLS

Languages: C++, Java, Dart, JavaScript, MIPS, SQL

Frameworks/Tools: Flutter, Firebase, VirtualBox, Ubuntu, VSCode, Xcode, CLion, Figma, Excel
